Did you know?

A new year is upon us and it comes complete with an extra day! February 29 is a Leap Day; and 2024 is a Leap Year, which means it has 366 days. This day is added to the calendar in leap years as a corrective measure because the Earth does not orbit the Sun in precisely 365 days. So...if you are born on February 29, you only have a birthday every 4 years?
